Features Peculiar to this Company, are:

FIRST—That under its By-laws, from twenty-five to fifty per cent. of its profits must be laid aside as a reserve fund for the better protection of its policy-holders.

SECOND—In the event of a total loss on a building, if the present cost is less than the insurance, the premium for the current year on the difference will be refunded; the only policy on the Pacific Coast that contains this clause.

ASSESSMENT

Life Insurance.

The Average Age and the Average Cost will Increase.

The advocates of assessment insurance insist that they can keep the assessments from increasing by keeping the average **age** of members from increasing by the admission of new and young members. This is so transparent an error as scarcely to merit notice, but one example will show the impossibility of preventing the increase of the average age. Take a society with 8,182 members whose average age is 35. The total years of age is $8,182 \times 35 = 286,370$ years. The deaths for ten years (according to the mortality table) will be as follows: 1st year, 73; 2d, 74; 3d, 74; 4th, 75; 5th, 76; 6th, 76; 7th, 77; 8th, 78; 9th, 80; 10th, 81; total, 765.

At end of the tenth year they have 7,417 members, age 45—

7,417 x 45=	333,765 years.
Add 765 new members at age 35=	26,775 "

And you have 8,182 members, 360,540 years, whose age is 44.06 years, an increase of 9.06 years. If you add 765 members at age 20, the average age is 42 $\frac{1}{2}$ years; an increase of 7 $\frac{1}{2}$ years.

The average age will increase; the young and healthy WILL drop when they begin to see what they are paying for the old members who are dying. It is impossible to keep the average age at 35. The co-operative men assert that insurance with them cannot cost more than \$8 to \$12 per \$1000. To show the falsity of this, take a society with 10,000 members, aged 35, insured for \$1000 each. Here is a liability of \$10,000,000! The expectation of life at age 35 is 31.78 years, say 32 years. This \$10,000,000 must, therefore, be paid in 32 years. 10,000 members paying as much as \$12 a year for 32 years will pay only \$3,840,000, or \$6,160,000 less than the liability. Now if the members cannot be required to pay more than \$12 per annum, how is the deficit of \$6,160,000 to be made up? If they pay only \$12 a year, how LONG will it require to pay the \$10,000,000? Answer: 83 years. This would require that they attain the average age of 118 years! or 51 years over the expectation, according to the table of mortality.

Actual Net Cost of Insurance.

While the NET COST of \$1000 insurance, at age 35, is only \$9, the cost rapidly increases to \$11 at age 45, \$18 at age 55, \$40 at age 65, \$62 at age 70, \$145 at age 80, \$445 at age 90, and \$1000 at age 95. These facts illustrate, among other things, the greater advantages of an AVERAGE or LEVEL Premium, which is never EXCESSIVE, and which prevents the Policyholder from being FORCED to abandon his insurance without any return for premiums paid when overtaken by old age, as at best, Policies on the Assessment plan have no value for surrender. By the "Level Premium" plan, owing to increasing dividends, the tendency of insurance is to become LESS costly with advancing age and inability to pay; whereas, with the "Assessment" plan, the cost increases in proportion as the ability to pay diminishes.

Assets, Market Value, - - - - - \$40,826,265.15

Surplus, N. Y. Standard, - - - - - 5,512,129.31

EVERY POLICY ISSUED BY THE MUTUAL BENEFIT IS
ABSOLUTELY NON-FORFEITABLE.

“EXTENSION SYSTEM.”

If, after payment of two years' premiums, the Insured should fail to pay any subsequent premium, the Company agrees to extend the full amount of the insurance for as long a period as the full reserve less premium loan, if any, will pay for at term rates. Thus, if from inability, forgetfulness, illness, or any other cause, the Insured fails to pay any premium when due, his insurance is not forfeited, as is the case with the usual form of life policies; but his insurance is, without any action on his part, continued in full force until the reserve is exhausted; so that whether premiums are continued or not, the Company guarantees a dollar's worth of insurance for every dollar of premium paid.

Example of a Lapsed Policy Paid in Full.

\$3,500 Insurance under Policy No. 100,921, on the life of Walter E. Latson, of San Francisco, was issued in October, 1880, the annual premium being \$49. He paid three premiums, amounting to \$147, including dividends. He did not pay the premium due in October, 1883; but instead of taking a Paid-up Policy, he allowed his insurance to be EXTENDED for 3 years and 167 days after lapse, making in all 6 years and 167 days' insurance at an average yearly cost of only \$9.10 per thousand. Mr. Latson died in March, 1885, more than one year after lapse of the Policy, which, however, was promptly paid in full by the Company,

THE ABOVE RULE APPLIES TO ALL POLICIES, THUS:

Party Insuring at Age 35 on the Annual Life Plan

IS ENTITLED TO

OVER **4** YEARS' INSURANCE FOR **2** YEARS' PREMIUMS ;

OVER **10** YEARS' INSURANCE FOR **5** YEARS' PREMIUMS ;

OVER **20** YEARS' INSURANCE FOR **10** YEARS' PREMIUMS ;

Or, if preferred, a Paid-up Policy for its full value is issued in exchange.

The value, in case of lapse, is endorsed on the Policy in plain figures; and on Endowment and other plans the value and extension are very much greater.

“Premium Loan Plan.”

To such as desire insurance with the least possible outlay of cash, the Company offers the privilege of the 30 per cent. loan plan. Under this plan the Company agrees to accept a uniform cash premium of 70 per cent. of the full rate, the remaining 30 per cent. being charged against the policy as a loan to be met by dividends, or, any residue thereof to be deducted from the face of the policy at death, if it should not previously have been paid off in cash or by dividends. Premiums are payable in advance, either **Annually**, **Semi-Annually**, or **Quarterly**.

Why run the risk of forfeiture? or why trust to the uncertainties of the assessment plan? when you can get **ABSOLUTELY NON-FORFEITABLE** INSURANCE at the **LOWEST NET COST** IN THE **MUTUAL BENEFIT LIFE INSURANCE COMPANY**, of Newark, New Jersey, which has paid Policy-Holders since organization in 1845 \$92,812,907.67

JAMES MUNSELL, JR., Agent for Pacific Coast, 415 Montgomery St., S. F.

THE BEST COMPANY. } **THE** } THE BEST CONTRACT.

MUTUAL LIFE INSURANCE COMPANY

OF NEW YORK

OFFERS ITS

TERM DISTRIBUTION POLICY

As the Best Form of Life Insurance Contract Ever Presented.

The Policy is Simple, Liberal, Non-Forfeitable.

These Policies are issued having Distribution Periods of Ten, Fifteen or Twenty Years, as the applicant may elect.

OPTIONS

At the end of each Distribution period, the owner of a "Distribution" policy can

1. Surrender Policy and Dividends for Cash; or,
2. Surrender Policy for a Paid-up Policy, and draw Dividends in Cash; or,
3. Surrender Policy and Dividends for a Paid-up Policy; or,
4. Continue Policy and use Dividends in reduction of future Premiums; or,
5. Continue Policy (at original rate) and draw dividends in Cash; or,
6. Continue Policy (at original rate) and let Dividends increase Policy; or,
7. Continue Policy (at original rate) and use Dividends to purchase an Annuity.

 A Paid-up Policy is guaranteed at any time after the third annual premium is paid, in accordance with the laws of the State of New York.

The *Distribution Plan* of this Company presents a most attractive investment feature. It not only accumulates the surplus arising from the premiums over the cost of the insurance on each policy in force during the Distribution period, but increases it by compound interest.

**DO NOT TAKE ANY OTHER.
SECURE AND PROFITABLE AS A U. S. BOND!**

Apply for full particulars to

ESTABLISHED JANUARY 1, 1886.

THE CITY STEAM CARPET BEATING

And Renovating Works,

24-26 EIGHTH ST., BET. MARKET AND MISSION STS.

The Machines in use in this establishment are superior in every respect to any machines in the United States. They are guaranteed not to rip or damage the carpets in any way. Carpets taken up by careful and experienced men; cleaned, returned, and laid the same day, if desired.

Refitting, Sewing and Laying of Carpets a Specialty. Satisfaction guaranteed in every respect.

Orders by mail or telephone promptly attended to,

H. L. JONES, Proprietor.

Received the First Premium at the Mechanics' Fair in 1886, over all competitors, for the best process of Cleaning and Renovating of Carpets.

☎ Telephone call 3250.

JAMES E. MITCHELL,

230 FOURTEENTH ST.

PACIFIC BUSINESS COLLEGE,

320 Post St., opp. Union Square.

The design of this Institution is to
 impart such an education as will best
 prepare students for the practical af-
 fairs of life. It provides thorough, sys-
 tematic and practical courses of in-
 struction, and employs a full corps of
 competent and faithful teachers. Ev-
 ery available modern improvement has
 been introduced, and whatever a liberal
 expenditure of money and well-di-
 rected energy could do, has been done
 to make the school what it should be,
 and to maintain for it a reputation
 worthy of its rank.

The Business Course, both
 theoretical and practical, is as near
 perfection as it is possible to make it.
 The system of *Actual Business Train-*
ing employed unsurpassed, students
 receiving the same practice in con-
 ducting business affairs as though they
 were in a *bona fide* bank, office, or
 counting-house. Practical Penman-
 ship is made the subject of daily drill.

The Academic Course af-
 fords an excellent opportunity for per-
 sons of any age to obtain thorough in-
 struction in Spelling, Reading, Writing,
 etc., the Higher Mathematical Branches,
 and the Modern Languages.

The Telegraphic Course is
 calculated to make proficient opera-
 tors. It includes careful instruction
 in *sound and paper* operating, setting
 up of instruments, management of
 batteries, use of switches and ground
 wires, etc.

General Information.—Day
 and Evening Sessions during the en-
 tire year. Students can enter at any
 time. Ladies are admitted to all the
 departments of the school. Individual
 instruction is given. Life Scholarships
 for the complete Business Course are
 issued at \$70.

(Established 1871.)

FILIPPE'S ACADEMY OF LANGUAGES
 320 Post Street.

Spanish, French, Italian, German,
 English, Latin, Greek, Russian and
 Portuguese taught at moderate terms
 by thorough teachers, with the short-
 est and best methods. Classes or
 private lessons day and evening.

Prof. De Filippe, graduate of
 the Academies of Paris and Madrid,
 continues to give personal instruction
 in Spanish and French by his easy
 practical method saving months of
 study.

"**Unique**" method of acquiring
 foreign languages where students have
 not the opportunity to practice. Fine
 library and foreign periodicals free to
 scholars.

WIG

JOSEPH BUDDÉ,

MANUFACTURER OF

PATENT WATER CLOSETS, SLOP, WASTE & INTERCEPTING HOPPERS,

WITH TRAP.

43

FREMONT STREET,

SAN FRANCISCO,

CAL.

WITH OFFSET.

The Golden Gate Plug Closet.

This Closet is the best of its kind, having been so far constructed, it has the following advantages :

- (1.) It has a simple, strong valve, suitable for any pressure, self-closing by a genuine Phosphor Bronze Spring, acting with the pressure.
- To prevent breaking and weakening of the spring, I have gone to the expense of using Phosphor Bronze Wire, which will have the desired effect.
- (2.) It has a real sanitary overflow, a copper float attached to a bell of the same metal resting on the face of the brass overflow pipe, operated by the rising of the water in the closets above its level, thus absolutely preventing any escape of sewer gas even the closets being without water.
- (3.) It has no dead corner, consequently no foul water will be left in the closet after the lifting of the handle. A constant rush out of the Hood chambers will keep the closet and trap perfectly clean.
- (4.) The plug or plunger is made in such shape as to prevent passing of rubbish into the float chambers, resting with a soft rubber gasket on a ground heavy brass seat.
- (5.) All the iron parts are dipped into boiling hot asphaltum varnish. This system is far superior to painting with a brush in order to prevent rusting.

With the above stated points, I am able to call my Closets the most perfect and cheapest in the Market.

N. B. Architects who endeavor to furnish their patrons with the most reliable goods, should not hesitate to give this closet a trial.

RAILROAD LANDS IN CALIFORNIA.

The attention of all heads of families or others contemplating permanent settlement in the West is called to the extraordinary offers now being made by the

CENTRAL AND SOUTHERN PACIFIC RAILROAD COMPANIES

— IN —

CHOICE FARMING AND FRUIT AND VINEYARD LANDS

Lying adjacent to the railroad in all the principal counties of the State, which are unexcelled in climate, healthfulness, productiveness of soil and accessibility of market, and include

The Best Wheat, Fruit, Grazing, Vineyard and Timber Lands in America

Adapted to all purposes of profitable agriculture, and may be had in tracts of 40 acres or upward, at prices ranging from \$1.50 to \$35 per acre, according to quality, location and accessibility to the main line of either road.

These lands will increase in value annually. Already thousands of heads of families have purchased lands along the Central and Southern Pacific Railroads, and have erected thereon splendid farms and homesteads, while many hold lands that they purchased a few years ago for from \$2.50 to \$20 per acre at from \$25 to \$250 per acre for speculative purposes.

Almost everywhere throughout the counties named, no snow, and only an occasional frost, that does no harm, is ever seen. There is really no WINTER WEATHER in the valleys of California, and not one home in one hundred ever has a fire except for culinary purposes. The summer weather is never oppressive, as in the Eastern or Southern States, while the nights are cool the year round.

Every person contemplating permanent settlement west of the Alleghany Mountains should, before applying elsewhere, call upon or address either

NORTH PACIFIC COAST RAILROAD

MOST DIRECT ROUTE

TO

All Points on the North Coast

Stages leave Ingrams daily (Sundays excepted) for Stewart's Point, Gualala, Point Arena, Cuffey's Cove, Navarro, Mendocino City, Caspar, Noyo, Kibesillah, Westport, and all points on the North Coast.

The Only Route to the Redwood Forests on the Russian River, where Hunting and Fishing can be found, to the full enjoyment of the most devoted sportsman.

Thirty-day Excursion Tickets sold at a reduction of 25 per cent. on the regular single fare tariff rates.

Excursion Round Trip Tickets sold on Fridays, Saturdays and Sundays, good to return on following Mondays. To

Camp Taylor.....	\$1 75	Tomales	\$3 00
Point Reyes.....	2 00	Ingrams	4 00

Excursion Round Trip Tickets sold on Sundays :

Camp Taylor.....	\$1 50	Tomales	\$2 50
Point Reyes.....	1 75	Ingrams	3 00

Tourists visiting this State cannot find a more beautiful and diversified trip. The steamers leave the ferry slip at the foot of Market street for Saucelito, the only seaside Resort where good bathing, boating and fishing can be found. The route from here runs along Richardson's Bay to the base of Mount Tamalpais, one of the features surrounding the Bay of San Francisco. Stopping at the station named after the mountain, the traveler will find teams ready to take him up to the top of this giant, from which a magnificent view of the Farallone Islands and the Pacific Ocean can be had. Three and a half miles from this station are the far-famed **Fairfax Picnic Grounds**; thence in three quarters of an hour **Camp Taylor** is reached, where all facilities, including Dancing Hall and Bowling Alley, for Camping and Picnic Parties can be found. From this point to **Point Reyes Station**, a distance of eight miles, splendid trout streams abound, on whose banks most beautiful spots for private camps can be found. The route then skirts for a distance of sixteen miles the Bay of Tomales, which is covered with all kinds of wild fowl. The hills surrounding this town (Tomales) are one vast potato field, until nearly reaching **Valley Ford**, which town is situated in the grain district of the county; thence to **Frestone**, which is the beginning of the great Redwood Forests; thence along to **Howard's Station**, from which is shipped an immense quantity of bark and wood; thence along Russian River to **Duncan's Mills**; thence to **Ingrams**, which is the present terminus of the road, and one of the loveliest spots in the State; the climate being as soft and mild as that of southern France.

The Hotels and cottages are kept by old experienced hotel keepers, thereby assuring every comfort and attention to the traveler.
